PROFILE

Motivated Software Engineer Trainee at Informatica with hands-on experience in PowerCenter, IDMC, and RPA tools. Skilled in Java, SQL, and front-end development, with a strong passion for coding and continuous learning.

PROFESSIONAL EXPERIENCE

Software Engineer Trainee 02/2025 – Present
Informatica Bangalore, India

- Contributed to BMW's BIAS and RRCM applications by validating over 100+ assets, ensuring seamless migration from PowerCenter to IDMC.
- Gained hands-on experience in PowerCenter design and runtime connectivity, RPA tools, and creating self-signed certificates for secure integrations.

EDUCATION

BTech Computer Science and Engineering 01/2021 – 05/2024
JNTU Ananthapur College of Engineering Kalikiri Chittoor, India
Secured 8.2 cgpa

Senior Secondary 05/2018 – 03/2020
Sri Vivekananda Junior College Chittoor, India
Secured 9.88 cgpa in board exams and a rank of 7288 in EAMCET

Secondary 05/2017 – 03/2018
Mangal Vidyalayam Chittoor, India
Secured 94.2% in CBSE board exams

SKILLS

Languages	Web Technologies	Databases	AI
Java, C, Python	HTML, CSS, Javascript, Bootstrap	Oracle SQL	AI , ML

PROJECTS

Portfolio 🔗

- Designed and developed a responsive personal portfolio using **HTML**, **CSS**, and **JavaScript** to showcase projects and technical skills.
- Implemented clean UI/UX design principles and deployed the site using **Netlify** for seamless access and performance.

Object Detection

YOLO for Instant Object Insight

- Developed a real-time object detection system using **YOLOv7**, enhancing object recognition speed and accuracy across multiple datasets. Designed a user-friendly interface with **Tkinter** to test and visualize model predictions, improving usability and model interaction.

CERTIFICATES

• Cloud Computation 🔗 • TCS Codevita 🔗

AWARDS

Technical Fest Coordinator

Successfully led and coordinated a college-level technical fest, managing event planning, team collaboration, and execution for 300+ participants.
